

Gasoline Powered Hedge Trimmer with Rotating Handle

This hedge trimmer is powered by a 22.5 cm³ engine and offers reliable performance. It features a multi-function rotating handle for ease of use.

Overview

Professional Performance and Ergonomics

This gasoline-powered hedge trimmer features a high-performance engine paired with a precision-engineered gear case for extended durability and reliable operation. Designed for user comfort, it utilizes a magnesium alloy wheel case and a hollowed-out blade design to significantly reduce the overall machine weight. The multi-function rotating handle allows for effortless position adjustments, ensuring optimal control and comfort across various working conditions.
