Overview

High-Performance Cleaning Solution

This gasoline-powered high-pressure washer is engineered for heavy-duty cleaning tasks, offering reliable performance with its 5.5HP engine. It features robust capabilities including self-suction functionality and overheat protection to ensure durability during extended operation. Designed for versatility, it is an ideal tool for maintaining driveways, patios, vehicles, and various outdoor surfaces.

Engine Specifications

Specification	Detail
Engine Model	HH168
Displacement	163cc
Fuel Type	Unleaded gasoline
Fuel Tank Capacity	3.6 L
Pump Type	Axial pump

Physical Attributes

Dimensions	625 x 410 x 640 mm
Gross Weight	28.5 kg

Operating Conditions

Ambient Temperature Range	0°C - 60°C
