

# Gasoline Powered Mini Tiller

This mini tiller is powered by a gasoline engine for effective soil preparation. It is suitable for cultivating, weeding, and ditching in gardens and small fields.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Agricultural Solution

The SC55 is a high-performance mini tiller engineered for efficient soil preparation in small to medium-sized gardens and fields. This multifunctional tool excels at cultivating, weeding, ditching, and managing paddy fields with ease. Featuring a lightweight design of only 35 kg, it offers superior maneuverability in tight spaces while maintaining professional-grade durability.

## Technical Specifications

specifications	
engine model	156F Petrol
rated power	1.8kw/3600
starting mode	recoil
transmission	belt+chain
gear shifting	1 forward
Tilling width	450-600
tilling depeth	100-200
blade type	3-3(2+1)
tire type	/
packing	carton+iron frame
gross weight	35kg

Detailed breakdown of the SC55 engine and operational specs.

### Rated Power

**1.8 kW**

Power Output

**3600 RPM**

Engine Speed

Engine Model	156F Petrol
Starting Method	Recoil
Transmission System	Belt and Chain
Gears	1 Forward

## Performance

### Tilling Capacity

Metric	Range
Tilling Width	450-600 mm
Tilling Depth	100-200 mm

Blade Type	3-3 (2+1)
