Product Overview

Versatile Soil Cultivation Solution

This gasoline-powered mini tiller is engineered for high efficiency in small-scale agricultural and gardening tasks. Its compact, lightweight design allows for easy transport in a car boot and single-person operation, making it ideal for tea gardens and vegetable fields. With a robust engine and all-gear transmission, it delivers reliable performance for ditching, soil loosening, and weeding.

Technical Specifications

Power Output	2.3 kw
Output Speed	300 r/min
Net Weight	27 kg
Transmission	All gear box

Key Features

Core Functions

- Ditching
- Soil loosening
- Weeding

Usability Highlights

27 kg
Weight

300 r/min
RPM

Suitable Applications

Tea Garden, Vegetable Fields, Greenfield
