## Product Overview

### Professional Gasoline Powered Post Hole Diggers

These gasoline-powered post hole diggers are engineered for high-performance drilling in demanding landscaping and construction environments. Featuring robust engines and ergonomic designs, they provide the power and maneuverability required for tasks like fencing, planting, and ground preparation. Built with high-quality materials, these machines ensure durability and reliable operation for both professional contractors and home users.

## Technical Specifications

### Model Comparison

Model	Engine	Displacement (cc)	Power (kW)	Weight (N.W kg)
BG431A	139F	31	0.7	10.3
LFG600	1E32FL	23	0.6	5.5
3WT-150	1E40F-5A	43	1.25	9.5
LF5200	N/A	49.6	2	5

### Fuel Tank Capacity

**0.9 L**

BG431A

**0.6 L**
