

Gasoline Powered Scooter with Kickstand

This gasoline-powered scooter has a sturdy frame and pneumatic tires. Equipped with a kickstand and handlebar, it offers a convenient and stable ride for recreational or short-distance transportation.

Overview

Compact Gasoline Scooter

This gasoline-powered scooter is designed for efficient, short-distance personal transportation. Featuring a reliable 43CC 2-stroke engine and a sturdy frame with pneumatic rubber tires, it offers a practical solution for recreational use. Its foldable design and compact dimensions make it easy to store and transport, while the included kickstand ensures convenient parking.
