

# Gasoline Powered String Trimmer

This is a gasoline-powered string trimmer used for cutting grass and weeds. It features a curved shaft, a cutting head with a guard, and a handle with controls.

## Overview

### Professional Performance

This gasoline-powered string trimmer is engineered for efficient grass and weed maintenance in both residential and commercial settings. Featuring a robust engine design and a curved shaft for ergonomic operation, it provides the reliability needed for demanding outdoor tasks. The integrated cutting head and guard system ensure safety and precision during operation.

## Technical Specifications

Power Source	Gasoline
Shaft Configuration	Curved Shaft
Suitable Applications	Residential, Commercial, Grass Trimming, Weed Control

## Features

### Safety Equipment

- Cutting head guard
- Integrated handle controls
