Product Overview

Efficient Brush Cutting Solution

This gasoline-powered walk-behind brush cutter is designed to simplify lawn and garden maintenance. Its ergonomic hand-push design significantly reduces labor intensity, making it accessible and easy to operate for a wide range of users, including the elderly and women. Featuring a foldable construction for easy transport and a specialized anti-winding cutting system, this machine is an ideal tool for efficiently clearing thick grass and weeds.

Key Features

Usability & Design

- Easy-start engine system
- Foldable design for compact storage and transport
- Hand-push operation to reduce operator fatigue
- Anti-winding grass/straw rope structure

Target Users

Residential Use, Commercial Use, Ergonomic Design

Technical Specifications

Power Source

Gasoline

Operation Type

Walk-behind / Hand-push
