

Gasoline Powered Walk-Behind Lawn Mower

This is a walk-behind lawn mower powered by a gasoline engine. It features a green cutting deck and includes a grass catcher bag.

Product Overview

Professional Performance

This self-propelled gasoline walk-behind lawn mower is designed for efficient and reliable lawn maintenance. Featuring a robust 139cc 4-stroke air-cooled engine, it delivers consistent power for demanding cutting tasks. With a 460mm cutting width and a large 60L grass catcher, this unit is built to handle medium-to-large residential or commercial areas with ease.
