Overview

Reliable Water Transfer Solution

This gasoline-powered water pump is engineered for efficient water transfer across various professional and residential applications. Designed with a robust frame for durability and portability, it provides reliable performance for irrigation, construction sites, and emergency dewatering needs. The unit features an air-cooled engine and is built for consistent, heavy-duty operation in outdoor environments.

Technical Specifications

Engine Model	GX200
Power Source	Gasoline
Cooling System	Air-cooled

Features

Key Features

- Self-priming capability
- Protective steel frame
- Portable design
- Standard inlet/outlet ports

Suitable Applications	Irrigation, Construction, Emergency Dewatering, Water Transfer
-----------------------	--

Maintenance & Safety

Maintenance Requirements

- Check oil levels before starting
- Ensure proper lubrication
- Regular fuel level monitoring

Shipping Condition

Shipped without oil
