

Gasoline Powered Water Pump

This gasoline water pump is designed for efficient water transfer. It features a powerful gasoline engine for reliable operation in demanding environments.

Overview

High-Performance Gasoline Water Pump

This robust gasoline-powered water pump is engineered for efficient water transfer in demanding industrial environments. Designed for reliability and durability, it features a sturdy frame to protect core components during operation. It is an ideal solution for irrigation, construction site dewatering, and emergency water removal tasks.

Performance Metrics

Maximum Flow Rate

1000 L/min

Flow Rate

Maximum Head Lift 32 m

Maximum Suction Head 8 m

Technical Specifications

Suction & Discharge Port 80mm (3")

Fuel Tank Capacity 3.6 L

Application

Best For Irrigation, Construction, Emergency Drainage
