Overview

High-Performance Water Transfer

This gasoline-powered water pump series is engineered for efficient water management in both agricultural and industrial settings. Designed with a robust engine and durable housing, these pumps offer reliable suction and high flow rates for demanding tasks like irrigation and drainage. The versatile range includes multiple port sizes to suit various operational requirements.

Technical Specifications

Available Configurations

Model	Port Size (Inches)
DS15WP	1.5" x 1.5"
DS20WP	2" x 2"
DS30WP	3" x 3"
DS40WP	4" x 4"

Pump Type	High Pressure Gasoline Water Pump
-----------	-----------------------------------

Key Features

Design Highlights

Robust Engine • Durable Housing • High Suction Capability • Portable Frame

Applications	Agricultural Irrigation, Industrial Drainage, General Water Transfer
