

Gasoline Powered Wood Chipper Shredder

This gasoline powered chipper shredder is designed for efficiently processing branches and yard waste. It features a large hopper for easy feeding of materials, hardened steel blades, and a wheeled frame for easy transport.

Overview

High-Performance Wood Processing

This gasoline-powered wood chipper shredder is designed for efficient processing of branches and yard waste, suitable for both residential and commercial landscaping tasks. It features a robust 196cc OHV 4-stroke engine that delivers reliable power for consistent chipping performance. With a mobile wheeled frame and a large hopper, this machine combines high-capacity shredding with excellent on-site maneuverability.

Performance Metrics

Blade Speed

3600 rpm

Max Blade Speed

Max Chipping Capacity

70 mm
