

# Gasoline Powered Wood Chipper Shredder

This garden wood chipper shredder is designed for efficiently processing branches and other yard waste. Powered by a gasoline engine, it features a hopper for easy feeding of materials, a discharge chute for directing processed material, and wheels for portability.

## Product Overview

### High-Efficiency Wood Processing

This gasoline-powered wood chipper shredder is designed for efficient processing of branches and yard waste, making it an essential tool for landscaping professionals and property maintenance. Featuring a robust 6.5hp engine and a 3-inch chipping capacity, it quickly reduces bulky organic material into manageable mulch. The unit is built with a durable steel frame and includes integrated wheels for easy portability across job sites.

## Engine & Performance

### Engine Power

**6.5 hp**

Power Output

### Engine Specifications

- 4-stroke
- Air-cooled
- Recoil start

Engine Model	168FA / B&S
Displacement	196 cc

## Operational Metrics

No Load Speed	3600 r/min
Max Cutting Speed	2000 /min
Fuel Tank Capacity	3.6 L

## Capacity

### Capacity Rating

3 inch capacity

Max Chipping Capacity	76 mm
