

Gasoline Powered Wood Cutting Chainsaw

This gasoline chainsaw features a single-cylinder, air-cooled, two-stroke engine. It is designed for cutting wood with precision, offering ample power for demanding tasks.

Overview

High-Performance Wood Cutting Solution

This gasoline-powered chainsaw is engineered for efficiency and precision in wood cutting tasks. Featuring a robust 1.30kW engine and a reliable CDI ignition system, it provides consistent power for demanding operations like tree felling and limbing. The ergonomic design includes an anti-vibration system to enhance user comfort and reduce fatigue during extended use.

Engine Specifications

Max Power

1.3 kW
