

Gasoline Water Pump with 4-Stroke Engine

This portable gasoline water pump is designed for efficient water transfer. It features a 4-stroke engine, delivering reliable power for irrigation, drainage, and general water pumping needs.

Product Overview

Efficient Portable Water Transfer

This portable gasoline water pump is engineered for reliable water transfer across various professional and agricultural applications. Powered by an efficient 4-stroke OHC engine, it provides a balance of power and energy savings. The compact design ensures ease of transport, making it an ideal choice for irrigation, drainage, and versatile pumping tasks.

Technical Specifications

Engine Type	4-Stroke OHC
Engine Model	140F
Discharging Capacity	38 cc
Available Outlet Diameters	1 inch, 1.5 inch

Performance Metrics

Performance Output

1 kW

Standard Power

6500 r/min

Rated Speed

Weight and Models

Model Specifications

Model	Net Weight (kg)	Gross Weight (kg)
WP-140-A	8.5	10
WP-140-B	9	10.5
