

Gasoline Water Pump

This gasoline water pump is designed for efficient water transfer in various applications. It features a robust engine for reliable performance and a durable pump housing for an extended lifespan.

Overview

Reliable Water Transfer Solution

This gasoline-powered water pump is engineered for efficient water transfer across various professional applications, including irrigation, construction sites, and general water removal. Its robust engine ensures consistent, reliable performance under demanding conditions. Designed with portability in mind, this unit allows for easy transportation and rapid setup in diverse locations, making it a versatile tool for field operations.

Performance Metrics

Key Performance Metrics

28 m Total Lift	8 m Max Suction
---------------------------	---------------------------

Technical Specifications

Inlet Size	50mm / 2 inch
Outlet Size	50mm / 2 inch
Fuel Tank Capacity	3.6 L
