

Gasoline Welding Generator

This commercial industrial household generator is designed for both welding and power generation. It features a robust frame and a control panel with AC and DC outputs.

Product Overview

Dual-Function Performance

This high-performance gasoline welding generator is engineered for both demanding welding tasks and reliable power generation. It offers a robust welding current range of 50 to 250A, making it suitable for versatile professional applications. Designed for endurance, the unit features a 25L fuel tank providing up to 8.5 hours of continuous operation.

Welding Performance

Performance Metrics

8.6 kW

Rated Output

190 A

Rated Current

Current Adjustment Range 50-250A

Rated DC Voltage 45 V

Generator Performance

Power Output

Metric	Value
Rated Output	5.5/6.0 kW
Max Output	6.0/7.0 kW
Frequency	50/60 Hz

Supported Voltages 120V, 220V, 230V, 120/240V

Engine & Physical

Engine Details

- Model: GP420/GP420es
- Displacement: 420cc
- Bore & Stroke: 90x66mm
- Starting System: Recoil/Key Start

Operational Capacity

25 L

Fuel Volume

8.5 h

Run Time

Dimensions & Weight

- Net Weight: 92/95kg
- Box Dimensions: 695 x 560 x 565mm
