

Gel Nail Polish Curing Lamp

This LED nail lamp is designed for curing gel nail polish. It features a compact and ergonomic design with a timer and evenly distributed LED lights to ensure uniform curing.

Product Overview

Professional Gel Curing Solution

This smart nail curing lamp is designed to efficiently dry and cure a wide variety of nail products, including hard gels, UV/LED gels, and Shellac. Featuring an intelligent infrared sensor system, the lamp automatically activates when hands or feet are inserted, offering a seamless user experience. With its spacious design, it accommodates both hands and feet simultaneously, making it an ideal tool for both professional salons and home use.
