

General Purpose Industrial Pump

This general purpose pump is designed for industrial applications. Its modular design allows for customization and integration with other systems.

Overview

General Purpose Industrial Pump

This general-purpose industrial pump is engineered for reliable operation across a wide range of demanding industrial applications. Featuring a robust, modular construction, it is designed for seamless integration into existing systems while offering durability in harsh environments. The unit includes multiple connection ports to ensure versatile installation and efficient performance.

Technical Specifications

Control Interface Markings

- ALTO
- ATTACCO
- ARIA
- BASSO

Design Style

Modular • Industrial Grade

Suitability

Industrial, Vacuum Equipment, General Purpose
