

# General Purpose Working Gloves

Durable and flexible, these working gloves are designed for safety in daily use. Constructed with a robust coating, they provide enhanced grip and protection for various tasks.

## Product Overview

### Professional General Purpose Gloves

These general-purpose working gloves are engineered with a 13-gauge seamless polyester shell for maximum dexterity and long-lasting comfort. The fully coated smooth nitrile surface ensures excellent grip even in oily environments, making them ideal for a wide range of industrial and manual tasks. Their lightweight design reduces hand fatigue during extended shifts while maintaining necessary protection.
