

Gigabit Interface Converter GBIC with RJ-45 Connector

This Gigabit Interface Converter (GBIC) is a hot-swappable input/output device. It plugs into a Gigabit Ethernet port or slot, linking the port with the network.

Product Overview

Gigabit Interface Converter

This hot-swappable input/output device is designed to link Gigabit Ethernet ports with the network. It features an RJ-45 connector, specifically optimized for copper-based connections. The unit allows for flexible network configuration and can be intermixed with various other transceiver standards on a port-by-port basis.

Technical Specifications

Connector Type	RJ-45
Media Type	Copper (1000BASE-T)
Hot-Swappable	Yes

Compatibility & Standards

Device Type	Transceiver • Mini-GBIC
Supported Standards	1000BASE-SX, 1000BASE-LX/LH, 1000BASE-ZX, 1000BASE-T
