

Glass Electric Kettle with Tea Infuser

This electric kettle features a durable glass body and stainless steel base. It includes a built-in tea infuser, preset temperature settings, automatic shut-off, and a keep-warm function.

Overview

Premium Glass Electric Kettle

This versatile electric kettle features a durable glass body and a stainless steel base, designed for both boiling water and brewing loose leaf tea with its built-in infuser. With a 1.5-liter capacity and precise temperature control, it offers a convenient solution for various beverage preparation needs. The transparent design allows for clear monitoring of the brewing process, while safety features like automatic shut-off ensure peace of mind.

Technical Specifications

Capacity	1.5 L
