

# Glass Electric Kettle with Tea Infuser

This glass kettle combines a sleek design with practical functionality. It features a stainless steel tea infuser and a transparent body to easily monitor the water level.

## ADDITIONAL IMAGES

## Product Overview

### Modern Glass Electric Kettle

This elegant electric kettle combines functionality with a sleek, modern aesthetic. Featuring a durable glass body, it allows users to monitor water levels and the boiling process in real-time. The integrated stainless steel tea infuser makes it an ideal solution for brewing loose-leaf tea directly, while the digital handle controls provide precise temperature management and convenience.

## Design & Build

Materials	Glass Body, Stainless Steel Infuser, Brushed Metallic Finish
