

Glass Electric Tea Kettle with Infuser

This electric kettle features a transparent glass body and stainless steel infuser. It is designed for efficient water heating and tea brewing.

Product Overview

Premium Glass Electric Tea Kettle

This modern electric tea kettle combines functionality with a sleek, transparent design, allowing users to monitor the brewing process easily. Equipped with a high-quality stainless steel infuser, it is perfect for preparing loose-leaf teas directly in the kettle. The durable glass body and integrated control base ensure efficient heating and precise operation for all your hot beverage needs.
