

Glass Retail Display Case with Open Shelving

This retail display case features a combination of glass-enclosed shelving and open shelving units. The structure is supported by a solid base, ideal for a retail store or salon.

Product Overview

Versatile Retail Display Solution

This glass retail display case is designed to optimize product visibility and accessibility in commercial environments. Combining a secure, glass-enclosed section with an open-shelf unit, it offers a dual-approach to merchandising. The robust base ensures stability, making it an ideal choice for salons, boutiques, and high-end retail stores looking to showcase items effectively.
