Product Overview

High-Performance Glass Yarn Fiber Optic Cable

This fiber optic cable is engineered for durability and reliable data transmission in demanding environments. It features unique fiber excess length control to maintain excellent mechanical and temperature characteristics. Designed with environmentally friendly, gel-free water blocking materials, this cable provides robust protection and consistent performance for your network infrastructure.

Construction & Protection

Cable Components

- Outer sheath
- Glass yarns
- Inner sheath
- Water blocking tape
- Loose tube
- Central strength member
- Water blocking yarns
- Ripcord

Key Protection Features

Rodent Resistant, Water Blocking, Gel-Free, Excess Length Control

Application

Recommended Application

Duct laying
