

GLC X253 Coupe AMG Rear Diffuser

This rear diffuser is designed to enhance the vehicle's aerodynamics and aesthetics. It is constructed from durable materials and tailored for the GLC X253 Coupe AMG model.

Product Overview

Aerodynamic Rear Enhancement

This rear diffuser is a precision-engineered automotive component designed to enhance the vehicle's aerodynamics and aesthetics. Constructed from high-quality, durable materials, it is specifically tailored for the GLC X253 Coupe model. The design integrates seamlessly with the vehicle's existing body lines, ensuring a perfect fit while helping to manage airflow under the vehicle, reducing turbulence, and improving stability at higher speeds.

Technical Specifications

Finish

Matte Black • Sporty

Material

ABS

Manufacturing Origin

Xuancheng, Anhui Province

Inclusions

Package Contents

- Main diffuser element
- Exhaust pipes
- Exhaust outlet surrounds
- Mounting hardware

Installation

Installation

Bolt-on installation using provided mounting points
