Product Overview

Precision Goggle Lens Mold

This high-precision injection mold is engineered for the efficient production of protective goggle lenses. Constructed with premium mold steel, it supports a variety of plastic materials including PVC, PC, PP, PE, and ABS, making it versatile for both medical and industrial eyewear manufacturing. Designed for durability, the mold offers a lifespan of up to 500,000 shots, ensuring reliable long-term performance for high-volume production needs.

Technical Specifications

Compatible Mold Steel	718, P20, 2738, NAK80, S136
Mold Base	S50C
Runner System	Yudo hot runner, 2 points valve gate
Supported Design Software	UG, PROE, CAD, CAXA

Production Capabilities

Estimated Mold Life

500000 shots
Maximum Shots

Compatible Plastic Materials	PVC, PC, PP, PE, ABS
Cavity Configuration	Single cavity

Logistics & Compliance

Certifications

ISO9001:2008

Payment Terms

- T/T
- L/C

Delivery Lead Time

30-70 days
