

# Gold-Plated Monitor Connector

This is a connector component designed for computer monitors. It features a circular opening for cable or plug insertion and a mounting interface.

## Product Overview

### Professional Grade Connector

This gold-plated monitor connector provides a reliable and high-conductivity interface for professional display equipment. Designed for secure mounting and efficient signal transmission, it is an essential component for high-quality computer monitor assemblies. The gold finish ensures long-term resistance to corrosion and excellent signal integrity in demanding professional environments.

## Physical Properties

Surface Finish	Gold-Plated
Component Type	Monitor Connector/Adapter

## Technical Features

Design Features	Gold-plated, Mounting interface, Circular port
