

# Gold-Wrapped Data Cable

This data cable features a transparent, hourglass-shaped structure with a gold-colored wire wrapping. It is designed for connecting electronic devices.

## Product Overview

### Premium Gold-Wrapped Data Cable

This specialized data cable features a unique, high-end aesthetic designed for professional environments where appearance matters. The cable is constructed with a distinctive transparent, hourglass-shaped outer layer and reinforced with a gold-colored wire wrapped in a precise helical pattern. Its frosted core provides a sophisticated contrast, making it an ideal choice for premium electronic setups or decorative connectivity solutions.

## Design and Construction

Design Style	Helical Gold-Wrapped
Material Composition	Transparent Outer Layer, Frosted Core, Gold-Colored Wire

## Connectivity

Intended Use	Electronic Devices • Data Transmission • Premium Setup
Connector Type	Cylindrical
