

Gooseneck Electric Kettle

This electric kettle features a gooseneck spout for controlled pouring. It is designed for rapid boiling of water and includes an automatic shut-off function for safety.

Product Overview

Precision Brewing Experience

This stainless steel electric kettle is engineered for enthusiasts who value precision and control. Featuring a specialized gooseneck spout, it ensures a steady, controlled pour that is ideal for pour-over coffee and delicate tea preparation. With its rapid boiling capability and automatic safety shut-off, it combines efficiency with convenience for daily use in any kitchen or office environment.

Key Features

Core Features

- Precision gooseneck spout for controlled pouring
- Rapid boiling technology
- Automatic shut-off safety function
- Detachable base for easy filling and serving
- Integrated water level indicator
