

Gooseneck Meeting Microphone with Mute Switch

This meeting microphone is designed for clear and reliable audio capture in professional settings. It features a flexible gooseneck for optimal positioning and a cardioid polar pattern to minimize background noise.

Overview

Professional Conference Audio

The LEM-580A is a high-quality meeting microphone engineered for clear and reliable audio capture in professional environments such as conference rooms and boardrooms. It features a flexible gooseneck design for precise positioning and a cardioid polar pattern to effectively minimize background noise and feedback. With a stable base and integrated mute switch, this microphone offers convenient control and seamless integration into various audio systems for meetings and teleconferencing.
