

# GPON/EPON Optical Network Unit

GPON/EPON optical network unit designed for delivering reliable and high-speed internet access. It is equipped with LAN ports, telephone ports for VoIP services, and a USB port for additional functionalities.

## Product Overview

### High-Performance Network Connectivity

This GPON/EPON Optical Network Unit (ONU) is engineered to deliver reliable, high-speed internet access for residential and small business environments. It features a versatile interface configuration, including multiple LAN ports for device connectivity, dedicated telephone ports for VoIP services, and a USB port for expanded functionality. With comprehensive LED status indicators, users can easily monitor power, network, and service connectivity at a glance.

## Technical Specifications
