

# GPON/EPON Optical Network Unit

GPON/EPON optical network unit designed for high-performance and reliable broadband access. It offers multiple LAN ports, telephone ports for VoIP, and USB connectivity, with LED indicators for status updates.

## Product Overview

### High-Performance Broadband Access

This GPON/EPON Optical Network Unit (ONU) is engineered to provide reliable and high-speed broadband connectivity for professional network environments. It supports versatile integration options, featuring multiple LAN ports for device connectivity, dedicated telephone ports for VoIP services, and USB functionality for added flexibility. Designed to meet industry standards, this unit ensures seamless compatibility with existing fiber infrastructure, while integrated LED indicators provide real-time status monitoring for power, network, and system functions.

## Connectivity & Interfaces

LAN Ports	4
Telephone (VoIP) Ports	2
USB Connectivity	Yes
Wireless Capability	WIFI, WPS

## Technical Specifications

### Network Standards

GPON • EPON

### Status Indicators

- Power (PWR)
- LAN 1-4
- Telephone (TEL 1-2)
- PON
- LOS
- WIFI
- WPS
- USB

Model Identifier	SM161042-GHDUZ-T20
