

GPON/EPON Optical Network Unit

This optical network unit is designed for fiber-to-the-home deployments. It provides a cost-effective solution for delivering high-speed internet, VoIP, and IPTV services.

Overview

High-Performance Fiber Connectivity

This GPON/EPON Optical Network Unit (ONU) is engineered for high-speed fiber-to-the-home (FTTH) deployments. It provides a reliable, cost-effective solution for delivering integrated internet, VoIP, and IPTV services. With Gigabit Ethernet connectivity and advanced Quality of Service (QoS) mechanisms, it ensures a stable and scalable network experience for end-users.

Technical Specifications

Supported Services

- High-speed Internet
- VoIP
- IPTV

Network Compatibility

GPON, EPON

Ethernet Ports

Gigabit Ethernet

Features

Key Features

Advanced QoS • Easy Installation • Scalable Design

Status Indicators

- Power
- PON
- LOS
- LAN
