Overview

The WM-5000P4D model featuring 4G connectivity and robust construction for field use.

Advanced Real-Time Security Management

This GPS-enabled security patrol device offers advanced dual-mode localization using GPS and Beidou for superior accuracy. Designed for professional security management, it supports real-time data uploads to a central management system, allowing for instant patrol track playback and remote oversight. With rugged IP67-rated construction and integrated 4G voice communication, it is built to perform reliably in demanding environments.

Technical Specifications

Connectivity & Communication

- 4G Network Support
- HD Voice Calling
- 5 Preset Phone Number Groups
- Remote Parameter Updates

Physical Dimensions

125 mm
Length

62 mm
Width

27 mm
Thickness

Localization Technology

GPS, Beidou, Dual-mode

Weight

227 g

Performance & Durability

Ingress Protection Rating

IP67

Durability Features

- Waterproof
- Dustproof
- Damage-resistant
- Impact detection

Battery Capacity

5400 mAh

Operational Capabilities

Data Storage Capacity

60000 records

Reading Distance

$\geq 3\text{CM}$

Safety & User Features

SOS Alert, Man-down Alarm, Pedometer, Alarm Clock
