

Grade 10.9 Hex Head Bolt

This is a grade 10.9 hex head bolt. It is designed for high-strength fastening applications.

Product Overview

High-Strength Fastening Solution

These Grade 10.9 hex head bolts are engineered for heavy-duty applications, providing superior tensile strength and reliable performance. Designed for versatility, they are suitable for use in building, automotive, instrument, and furniture assembly. With a range of finishes and standard compliance, these bolts ensure secure and durable connections in diverse industrial environments.
