

Grade 5 Hex Head Bolt

These grade 5 hex head bolts are designed for a wide range of fastening applications. The bolts are manufactured from medium carbon steel and heat-treated for enhanced durability.

Product Overview

High-Strength Fastening Solution

These Grade 5 hex head bolts are engineered for reliable performance across a wide range of industrial and commercial applications, including building, automotive, and furniture assembly. Manufactured from high-quality carbon and alloy steels, they are heat-treated to meet rigorous standards for durability and clamping security. With versatile finish options and adherence to international specifications, these bolts provide a dependable fastening solution for demanding environments.

Technical Standards

Norms Compliance

- DIN931/33
- DIN960/61
- DIN934
- DIN125/27
- DIN6914/15/16
- DIN7990
- ISO4014/17
- ASTM A325
- ASTM A490
- ASTM A563
- ASTM F436
- ASTM A193 B7
- ASTM A194 2H

Supported Standards

DIN, ISO, ANSI, ASME, BS, AS, JIS

Material & Finish

Material

Carbon Steel • Alloy Steel

Available Finishes

- Plain
- Black Oxidized
- Zinc Plated (White, Yellow, Blue, Color)
- Hot Dip Galvanized
- Dacromet

Performance & Capacity

Monthly Supply Ability

800 tons

Supply Capacity

Available Grades

8.8, 10.9, 12.9, Grade 5, Grade 8

Logistics

Packaging Details

25kg per carton, 36 cartons packed in a pallet or according to your demands

Delivery Time

7-30 days
