Overview

Professional Grain Storage Solution

This industrial-grade grain storage silo system offers a robust, turnkey solution designed for long-term reliability and grain integrity. Engineered with high-quality hot galvanized steel, the system provides exceptional protection against environmental factors, pests, and moisture. With advanced monitoring technology, including temperature and moisture supervision, it ensures optimal storage conditions for a wide range of agricultural and industrial applications.

Technical Specifications

Material	Hot Galvanized Steel
Galvanized Coating	275-600g/m2
Bottom Type	Flat or Hopper Type
Gas-tightness	Perfect
Expected Lifespan	30 Years

System Capabilities

Integrated Auxiliary Systems	Drying, Cleaning, Dedusting, Lifting, Conveying
Monitoring Technology	Temperature and Moisture Supervision via PLC

Commercial Details

Condition

New

Applicable Industries

- Manufacturing Plant
- Food & Beverage Factory
- Farms
- Construction works
- Energy & Mining

Warranty

1 Year

Services

Included Services

- Free spare parts
- Field installation, commissioning and training
- Field maintenance and repair service
- Video technical support
- Online support
