

Granular Product Linear Weigher

This linear weigher is engineered for precise weighing and packaging of granular and free-flowing items. Its multiple independent weighing heads enhance accuracy and throughput.

Overview

High-Precision Linear Weighing Solution

This linear weigher is designed for the efficient and accurate dispensing of granular and free-flowing products. It features multiple independent weighing heads to minimize errors and maximize throughput, ensuring consistent performance. Constructed from durable stainless steel, it is suitable for food, pharmaceutical, and chemical applications, while the intuitive touchscreen interface allows for precise control over weighing parameters.

Applications

Suitable Products

Sugar, Salt, Seeds, Rice, Sesame, Glutamate, Milk Powder, Coffee, Seasoning Powder

Technical Specifications

Model Specifications

Model	Heads	Range (g)	Accuracy (g)	Speed (P/M)
WP-AX1-2-1	1	20~1000	0.5~3	10~15
WP-AX2-2-2	2	50~3000	0.5~3	30
WP-AX2-2-1	2	1000~12000	1~10	25
WP-AX4-2-2	4	5~2000	0.2~2	55
WP-AX4-2-1	4	5~300	0.1~1	70

Operational Features

Operational Metrics

20 count

Preset Parameters

700 W

Min Power Consumption

1200 W

Max Power Consumption

Power Requirements

220V / 50(60)Hz
