

Graphite Engine Gasket

This graphite gasket is designed for sealing engine components in electric power and power generation applications. It provides a reliable seal between engine components, preventing leakage and ensuring optimal performance under high temperatures and pressures.

Product Overview

High-Performance Graphite Engine Gasket

This high-performance graphite engine gasket is precision-engineered to provide a reliable seal under demanding high-temperature and high-pressure conditions. Designed for tractor engine applications, it offers exceptional thermal stability and chemical resistance to prevent leakage and ensure optimal engine efficiency. Its durable construction promotes a long service life, making it a dependable choice for heavy-duty power generation and automotive engine maintenance.

Technical Details

WT Number	11-AG-00404
OEM Number	2245122
Engine Type / Compatibility	Perkins2306
Primary Application	Tractor Engine

Key Features

Durability Metrics

1 Long

Shelf Life

1 Extended

Service Life

Performance Attributes

High Temperature Resistance, High Pressure Resistance, Oil Resistant, Water Resistant, High Efficiency

Packaging & Quality

Quality Standard

Standard Quality • High-Quality

Packaging

Carton packaging
