

Gravity Air Vent Car Phone Holder

This car phone holder utilizes gravity to automatically grip a phone when placed in the cradle. It is designed for air vent installation, providing a stable and hands-free experience while driving.

ADDITIONAL IMAGES

Product Overview

Secure air vent mounting provides a stable viewing angle for hands-free navigation.

Gravity-Driven Convenience & Safety

The Gravity Air Vent Car Phone Holder features a smart linkage design that automatically clamps and releases your device using its own weight. Engineered for one-handed operation, it allows drivers to safely manage GPS and calls without distraction. The three-point support system ensures your smartphone remains stable and secure even on bumpy roads.

Technical Specifications

Material	ABS, PC, Soft Rubber
Compatibility	Suitable for mobile phones up to 6.5 inches
Product Weight	75 g

Design Features

The three-point claw system with integrated rubber pads ensures a non-slip grip and protects your device from scratches.

契合型设计

Precision-engineered gravity linkage automatically locks the phone in place upon insertion.

Key Features

- Gravity auto-clamping mechanism
- One-hand operation for easy pick and place
- Slip-proof and shock-proof rubber mats
- Air vent clip-on installation
- Three-point stable support system
