

# Gravity Feed Spray Gun

This spray gun is designed for various coating applications. It features a gravity-feed system and adjustable nozzle for precise control.

## Product Overview

### Professional Gravity Feed Spray Gun

The SH-112 is a professional-grade gravity feed spray gun engineered for consistent material flow and superior atomization. Its ergonomic design minimizes operator fatigue, making it an ideal choice for extended use in demanding work environments. With highly adjustable nozzle settings, this tool provides precise control over spray patterns and output for diverse coating applications.

## Technical Features

### Control Features

- Adjustable nozzle
- Spray pattern control
- Material output adjustment

Feed Type	Gravity Feed
Compatible Coatings	Paints, Lacquers, Varnishes

## Design and Durability

Ergonomic Design	Yes
Construction	Heavy-duty industrial grade
