

Green and Silver Step-Through Scooter

This scooter has a step-through frame and is finished in green and silver. It features a single-cylinder engine, front disc brakes, and a rear luggage rack.

Overview

Versatile Step-Through Scooter

This green and silver step-through scooter is designed for efficient urban commuting and utility. Featuring a reliable single-cylinder engine and a practical rear luggage rack, it balances performance with everyday functionality. The inclusion of comprehensive safety features like disc and drum brakes, along with integrated lighting and mirrors, makes it a robust choice for professional transport needs.
