

Green Box DC Cooling Fan

This DC fan provides optimal cooling and ventilation. It features a green color scheme, a box-shaped frame, and integrated leaves to enhance airflow.

Product Overview

High-Performance Cooling Solution

The Green Box DC Cooling Fan is engineered for optimal thermal management in electronic systems and computer cases. Featuring a unique box-shaped frame with integrated leaves, this fan design maximizes airflow efficiency for reliable heat dissipation. Its durable construction ensures long-term operational stability in demanding environments.

Technical Specifications

Recommended Applications

- Computer cases
- Electronic devices
- General heat dissipation

Cooling Type	DC Fan
Design Features	Box-shaped frame, Integrated leaves, Optimized airflow
