

Green Metal Garden Rake with Ten Tines

This garden rake features a durable green metal construction and ten sturdy tines. It is ideal for efficiently gathering leaves and debris.

Product Overview

Professional Garden Maintenance Tool

This heavy-duty garden rake is constructed from durable green metal, engineered for longevity and reliable performance in demanding outdoor conditions. Featuring ten sturdy tines, it excels at efficiently gathering leaves, debris, and smoothing soil surfaces to prepare or clean your landscape. The universal design incorporates a standard handle socket, making it compatible with most conventional rake handles for versatile use in professional gardening tasks.
