

# Grounded Garden Hose Hanger with Faucet Attachment

This grounded hose hanger provides a simple and functional way to store a garden hose. It features a stake design for easy ground insertion and includes a faucet attachment point for direct connection.

## Product Overview

### Professional Garden Hose Management

This grounded garden hose hanger offers a durable and organized solution for outdoor water management. Featuring a robust powder-coated steel frame, it is designed to prevent kinks and extend the lifespan of your hose. The integrated faucet attachment allows for direct water connection, making it a highly functional addition to any commercial or residential landscape.
