

GU10 Compact Fluorescent Lamp

This compact fluorescent lamp features a GU10 base for easy installation. Its reflector design focuses light output, making it suitable for accent and general lighting.

Overview

Energy-Efficient Lighting Solution

This compact fluorescent lamp (CFL) features a standard GU10 base, making it an ideal choice for energy-efficient lighting upgrades. Its integrated reflector design provides focused light output, suitable for both accent lighting and general illumination needs. Designed for longevity, this bulb offers reduced energy consumption compared to traditional incandescent options, ensuring reliable performance in compatible fixtures.

Technical Specifications

Base Type	GU10
Technology	Compact Fluorescent Lamp (CFL)

Features

Key Features	Energy Efficient, Reflector Design, Focused Output, Easy Installation
