

# GU10/JDR Halogen Reflector Lamp

These halogen reflector lamps are designed for accent and spotlighting applications. They utilize a dichroic reflector to efficiently direct light forward while dissipating heat from the back.

## Product Overview

### GU10 and JDR Halogen Reflector Lamps

These halogen reflector lamps are designed for professional accent lighting and precise spotlighting applications. Featuring advanced dichroic reflector technology, they efficiently direct light forward while dissipating heat from the rear, ensuring optimal performance and longevity. Ideal for both residential and commercial environments, these lamps provide consistent, focused illumination suitable for various architectural and decorative lighting needs.

## Technical Specifications

Voltage	100-130V / 200-240V
Compatible Base Types	GU10, JDR
Rated Life	2000 H

## Performance Data

### Performance Matrix

Power (W)	Color Temp (K)	Beam Angle	Illumination (CD)
35	2925	25 DEG	600
50	3050	25 DEG	1000
75	3050	25 DEG	1400
35	2725	38 DEG	600
50	2925	38 DEG	1000
75	3100	38 DEG	1400
